

Jump Start @ MILES COMMUNITY COLLEGE

Start Here... Go Anywhere... Save Money!

No matter where you're planning to attend college, Miles Community College can get you on your way with the Jump Start Program! Jump Start is designed to give students college preparation and a way to earn transferable credits without attending a full semester of classes. Students enrolling in Jump Start must be either juniors or seniors in high school. Graduating seniors who have not begun college are also eligible to participate.

Tuition is waived! Pay Fees only!

Custer county residents can save up to \$213 per course, and out-of-district residents can save \$300!

Available Courses

Jump Start courses are fully transferable and fulfill portions of the Montana University System Core. The following classes are being offered Summer 2011, and run June 6-July 29 unless otherwise specified:

Course	Sect.	Course Title	Cr.Hrs.	Time	Days	Room	Instructor

* An L or D following a section number indicates an online (L) or interactive television (D) course. An additional fee of \$35 per credit applies to online and ITV courses.

All courses require a COMPASS placement test or proof of minimum ACT or SAT scores prior to enrollment. To schedule a COMPASS placement test, please contact the Center for Academic Success at 874-6152. There is a \$10 charge for the COMPASS test.

Summer term Centra memberships (June and July only) are also available at a discounted prices for Jump Start students. Call the Centra at 874-6184 for more information.

Call **1-800-541-9281**, or **874-6100** for more information
or to register for Jump Start courses.

Jump Start begins June 6. Register now!

Course Descriptions

Communication Arts

CA111 Interpersonal Communication 3.00

The objectives of this introductory-level course are to help students develop an understanding of the fundamentals of interpersonal communication theory and to learn useful skills that will enable them to be more effective in establishing healthy interpersonal relationships in their personal lives and professions.

CA112 Public Speaking 3.00

This course is intended to help students develop skills in speaking, organizing thoughts, and listening. Major emphasis is placed on the preparation and presentation of formal speeches.

Chemistry

CHMY121 Intro to General Chemistry 3.00

This is an introductory general chemistry course. Topics covered include measurement systems, atomic structure, chemical periodicity, bonding, chemical reactions, acid-base chemistry, and nuclear chemistry. Prerequisite: M 090 Introductory Algebra, ACT score of 18 or Compass Placement score of 44 or higher on the Algebra section. Co-requisite: CHMY 122 Intro to General Chemistry Lab.

CHMY122 Intro to General Chemistry Laboratory 1.00

This is an introductory general chemistry course. Topics covered include measurement systems, atomic structure, chemical periodicity, bonding, chemical reactions, acid-base chemistry, and nuclear chemistry. Prerequisite: M 090 Introductory Algebra, ACT score of 18 or Compass Placement score of 44 or higher on the Algebra section. Co-requisite: CHMY 121 Intro to General Chemistry.

History

HSTA101 American History I 3.00

This course combines the mainstream historical political diplomatic-economic approach to American history with the historians continuing interest in social and cultural developments. HSTA 101 begins with the pre-Colonial era and continues through the Revolutionary-Constitutional period, westward expansion, the sectional crises, and the Civil War.

HSTA102 American History II 3.00

This course is a survey of American history from the Post bellum era to the present. Topics covered include Reconstruction, the American West, urbanization and industrialization, imperialism, American

involvement in the two world wars, the New Deal, and postwar developments. The postwar era focuses on the rapidly changing course of events relative to the nations economy, the Civil Rights era, and the Cold War. The history of social and cultural trends is integrated throughout this course.

Mathematics

M121 College Algebra 4.00

This course covers the concept of functions; complex numbers; and solving systems of equations, sequences, and series. Functions investigated include linear, quadratic, polynomial, exponential, and logarithmic. Prerequisite: M 095 Intermediate Algebra, or appropriate placement on COMPASS test.

Philosophy

PHL 101 - Intro to Philosophy: Reason and Reality 3.00

This course is an introduction to the theories, methods, and issues of philosophy. Areas explored include logic, metaphysics, aesthetics, epistemology, ethics, and religion.

Psychology

PSYX100 Intro to Psychology 3.00

This course is an introduction to the methods of study in psychology, cognitive science, and neuroscience, including an overview of physiological aspects of behavior, sensation, perception, research methodology, statistics, learning principles, motivation, intelligence, cognition, abnormal behavior, personality, therapy, and social psychology.

Writing

WRIT101 College Writing I 3.00

This is an introductory writing course with emphasis on writing to a targeted audience. College Writing I prepares students for success in a wide variety of academic and vocational writing concerns. The writing process, formal voice, audience concerns, close reading strategies, effective styles and techniques, and the use of the computer as a writing tool are covered. Asserting and supporting a central claim and using MLA documentation and format are addressed. Prerequisite: WRIT 095 Developmental Writing or appropriate placement on Compass, ACT or SAT examination scores.
