MCC Announces Summer 2026 Teachers Institute and Professional Development Opportunities

MILES CITY, MONTANA: Miles Community College is offering a variety of professional development and workforce training opportunities this summer through its 2026 Teachers Institute and continuing education programs.

Courses are designed for educators, school staff, community members, and individuals seeking new skills or certifications. Topics range from youth mental health and classroom management to writing instruction, construction workforce training, and CPR/First Aid certification.

Highlights of the Summer 2026 schedule include:

- **Youth Mental Health First Aid** (June 8), an evidence-based course focused on recognizing and responding to mental health and substance use challenges among youth.
- **National Cinemas** (online beginning July 1), an examination of American film through historical and cultural perspectives.
- **CPR and First Aid Certification** (July 28), leading to official Heartsaver CPR/AED certification.

These courses provide valuable opportunities for professional growth, skill development, and continuing education during the summer months.

For complete course descriptions, registration information, and additional details, view the current Teachers Institute course guide: [Summer 2026 Teachers Institute Course Guide](#).

Visit the [Teachers Institute online registration and payment webpage](#) to register directly.

For more information, contact MCC Workforce Development Coordinator, Elizabeth Smith, by calling 406-874-6168 or emailing smithe@milesc.edu.
